Vehicle Logic

Product Integration

Build high quality, up-to-date tyre and wheel catalogues using Vehicle Logic's **Product Integration.**

Vehicle Logic works in partnership with the world's largest tyre and wheel manufacturers to ensure accurate data on:

- Over 29,000 tyres from 106 tyre brands
- Over 90,000 wheels from 129 wheel brands

Product Integration is updated monthly and supplied directly from over 200 tyre and wheel brands.

Have complete confidence your catalogues are relevant, accurate, up-to-date and specific to your business as **Product Integration** delivers on the exact products your business stocks resulting in time savings and cost efficiencies.

Catalogues created using **Product Integration** access information direct from tyre and wheel manufacturers to deliver:

Tyre:

- Image
- Product name
- Size range
- Product descriptions
- Vehicle category
- Performance category
- Key product features

Wheel:

- Front and side on images
- Product name
- Size range
- Available finishes
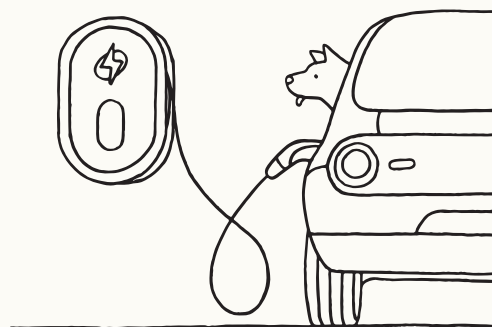

Who profits from Product Integration?

- Tyre and wheel retailers
- Tyre and wheel e-commerce sites
- Automotive point of sale (POS) systems

Using Product Integration. Seamlessly integrate accurate product catalogues across your business systems

Online - Streamline customer experiences, and enhance customer retention

Behind the Counter - Streamline customer experience and help to eliminate human error
